If you do not receive such an email within 10 days of your submission, you should contact the electronic filing department at eClaim@gcginc.com to inquire about your file and confirm it was received and acceptable.

The following methods are available for submitting your electronic claims:

III. Documentation Requirements

The documentation requirements outlined below must be submitted with your electronic file. Your electronic claims will not be considered valid until all documentation requirements are received. Please note that one single document may meet more than one requirement.

1. One Signed Proof of Claim and Release

- You must complete the claimant identification page (Part I – page 2) and signature (page 7) of a single Proof of Claim and Release form, which will serve as an "umbrella" or "master" claim form for all accounts on your electronic file.
- The claim form must be signed by an authorized signatory and state the capacity (job title) of the signatory.
- You may reference the term "Various Accts" or "See File" for the beneficial owner name if you are filing on behalf of multiple accounts or clients.

2. Signature Verification Document

- You must provide a current document verifying that the individual who signed the claim form and any supplemental documents is authorized to sign on behalf of his/her company. Some common types of documents that fulfill this requirement include the following:
 - Copy of company's By-Laws, including signature page(s)
 - Copy of company's Corporate Resolution, including signature page(s)
 - Notarized Affidavit signed by an officer of the institution clearly granting a specific individual(s) authorization or confirming his/her own authority to sign on behalf of his/her company.

3. Data Verification Document(s)

- You must provide current document(s) confirming the number of distinct accounts and transactions on your file as well as documentation verifying the source of your data and attesting to the truth and accuracy of the transactions and holdings on your electronic file. Some common types of documents that fulfill this requirement include the following:
 - Notarized affidavit or signed letter on firm letterhead disclosing the source of your data (i.e. internal data retention system) and attesting to the truth and accuracy of the information on your file. This communication must be executed by an authorized signatory and specify the capacity and contact information of the signatory.
 - Trade confirmations
 - Account statements

4. Authorization Document (if filing on behalf of client or customer accounts)

- You must provide a current document verifying that you are authorized to file and sign claims on behalf of your clients¹. Some common types of documents that fulfill this requirement include the following:
 - Power of Attorney
 - Service Agreement
 - Signed/dated letter on client's company letterhead specifically granting your company authority to file/sign claims on their behalf.
 - Notarized affidavit or signed letter on your company's letterhead confirming your authority to file and sign claims on behalf of your clients. It must be executed by an officer of the company and reference the capacity and contact information of the signatory.

Additional Documentation (if requested) - Data Integrity Audit

*** Failure to comply with this request will result in the rejection of your entire file submission ***

GCG may request random entities, as deemed appropriate by GCG, who file claims electronically to provide documentation specific to transactions and/or holdings submitted. The documentation provided should be sufficient to verify the validity and accuracy of the entire file.

Even if you provided a letter/affidavit attesting to the truth and accuracy of your data when initially submitting your file electronically, we will **require** specific documentary evidence (trade confirmations, monthly statement, or equivalent) to verify the details of these transactions and/or holdings requested, if your file is selected for randomized review.
